TWO CONTRACTS, ONE TRAP

Why selling more motorcycles does not fix this.

LIVEWIRE: 5 YEARS IN AND 1% OF PLAN · PART 3 OF 4

THE CONTRACTS

Two manufacturing agreements signed the same day, a services contract with a ninety-day trapdoor, and why execution cannot fix it.

PART I

THE GROWTH

386% is 55 bikes to 267. The plan was 100,000. The miss is the story.

PART II

THE LINEUP

\$29,799 to \$4,999. Premium to price. The overhead never followed.

PART III

THE CONTRACTS

Buying bikes loses money. Not buying them costs money. Both in writing.

PART IV

THE LOAN

Nov 2025: equity backstop out, secured claim in. \$85M due Dec 2027.

PART V

THE TAPE

Insiders sold on every spike, bought on none. 36 of 38 timed right.

PART VI

THE FINAL WORD

Every spending number hit, no volume number hit. Harley changed seats.

TWO CONTRACT MANUFACTURERS, SIGNED THE SAME DAY

Both dated 26 September 2022. Both carry minimum annual volume commitments. Both charge a deficit fee if the volume is missed.

WHERE THE MONEY GOES, PER MOTORCYCLE

The motorcycle is nearly a rounding error.
\$58,049 of overhead per unit is the business.

THE PART NOBODY REPORTS

87%

OF Q2'S GROSS LOSS WAS INVENTORY WRITE-DOWNS
— NOT THE COST OF BUILDING THE MOTORCYCLE

GROSS LOSS, Q2 2026 — \$2,534K

NRV WRITE-DOWNS \$2,204K

EVERYTHING ELSE

Harley builds the motorcycles. **LiveWire** buys them at **cost-plus** — Harley's cost, plus a mark-up. Then writes them down to what they can actually be sold for. The filing proves the bikes were carried above what they would fetch; the contract supplies the mechanism.

Cost-plus in, write-down out. That is my reading of the two documents together.

S2 • BOUGHT AT COST-PLUS, WRITTEN DOWN ON ARRIVAL

THE FY2025 10-K, EXPLAINING WHY COSTS IMPROVED

"...primarily driven by a significant decrease of the number of motorcycles purchased in 2025 as compared to 2024 resulting in lower net realizable value adjustments..."

LIVEWIRE GROUP, FORM 10-K, FILED 20 FEBRUARY 2026

MARGINS IMPROVED BECAUSE THE COMPANY BOUGHT FEWER MOTORCYCLES.

SO DON'T BUY THEM. EXCEPT.

BIKES ON A BENCH, WAITING ON PARTS

Parts Harley had already procured to build motorcycles LiveWire didn't take. **There is no third option.**

BEGINNING CALENDAR 2027

MINIMUM ANNUAL VOLUME COMMITMENTS, PER PRODUCT, WITH A DEFICIT FEE.

To Harley-Davidson — and, under the agreement amended in May 2026, to KYMCO as well.

The exposure that already cost \$6.1 million once now exists in duplicate — and stops being discretionary.

THE THIRD DOCUMENT • MASTER SERVICES AGREEMENT

90

DAYS' NOTICE. EITHER PARTY. NO TRIGGER REQUIRED.

Everyone quotes the "forty percent" clause. The paragraph under it — §8.3(c) and §8.4 — lets Harley-Davidson end the services agreement **for convenience**. Payroll, IT, the building, engineering support. Ninety days.

THE ECONOMICS WERE NOT DECIDED BY THE MARKET. THEY WERE DECIDED BY THE TERMS.

Part 4: the loan that settled it eight months before the quarter — and the people who did the work anyway.

Full brief — the KYMCO Exhibit A, redacted cell by cell, is in there.
