

PART 3 OF 3

IT WAS DECIDED IN NOV 2025

The quarter was reported in July 2026.
The outcome was settled eight months
earlier, in a loan agreement.

FIFTEEN MONTHS, FIVE FILINGS

FEB 2024

\$100M convertible loan. If LiveWire can't repay, H-D converts to equity. Never drawn.

NOV 2025

Conversion feature REMOVED. Security interest over substantially all assets added. Covenants added.

DEC 2025

\$75M drawn. Interest accrues to maturity.

FEB 2026

"Does not plan to make additional investments."

MAY 2026

Five-year strategy. No LiveWire target. The word "electric" does not appear.

IN FIFTEEN MONTHS, HARLEY- DAVIDSON MOVED FROM PARENT TO SECURED CREDITOR.

Every step is a filed instrument with a date on it. What the sequence means is interpretation. That it occurred is not.

CASH, AND WHERE IT WENT

The 2025 increase is **borrowed money, not earned.**

WHAT HAS TO BE FOUND BY 15 DECEMBER 2027

Burn, six quarters	\$89.7M
Term loan at maturity	\$85.0M
Less cash on hand	-\$52.9M
Net to be generated	\$121.8M

Interest accrues at SOFR + 4%,
compounding, with nothing payable until
maturity. The balance grows.

WHAT THAT MEANS IN MOTORCYCLES

LIVEWIRE – TTM

923

HONDA GROM – BEST SELLER IN THE SEGMENT

~10,000 a year, with Honda's dealer network

NEEDED TO CLEAR DECEMBER 2027

135,000

All three drawn to one scale. **Twenty-one Honchos per dealer, per week, for fourteen months.**

THE REALISTIC CASE

2,000

S4 HONCHOS GLOBALLY IN A STRONG FIRST YEAR

COVERS THIS MUCH OF ANNUAL BURN

3%

COVERS THIS MUCH OF THE DEC 2027 GAP

1.5%

Nothing below roughly 40,000 units changes any conclusion.

WHAT I'M WATCHING

THE FILINGS THAT WOULD TELL YOU FIRST

- **An 8-K amending the credit agreement.** Extension. The date moves, nothing else does.
- **A share issuance to H-D.** Conversion — check whether it crosses 90%.
- **Any disposal of STACYC.** The strongest single signal in the set.
- **A Schedule 13D.** There has never been one filed on this company.

**NONE OF THIS
MEANS LIVEWIRE
FAILS. IT MEANS THE
REMAINING
DECISIONS AREN'T
LIVEWIRE'S TO
MAKE.**

Cost per unit down 47%. Operating burn down 18%. STACYC profitable. Dealer network rebuilt. The people there are executing. What's broken is structural — and it was fixed in place by the end of 2025.

Full brief — 12 sections, 260 filings, every source linked.
